

March 2, 2018

We're posting this announcement to keep you apprised of the Geri-Fit Company's efforts to work with the CDC on their arthritis projects and grants.

This notice is to advise you of the recent update regarding the Notice of Funding Opportunity (NOFO) for [CDC-RFA-DP18-1803](https://www.cdc.gov/od/oc/ohrt/2018/03/02/2018-03-02-geri-fit-nofo-update) for the purpose of implementing state-based approaches to improve arthritis management and quality of life for adults with arthritis.

The **Geri-Fit®** program is referenced in the FAQs and is eligible under this funding opportunity. It is addressed in the eighth question in the *Recipient Strategies Activities* section on the CDC's website at this link: <https://www.cdc.gov/arthritis/about/nofo/2018/faq.htm>

The complete Notice of Funding Opportunity can be seen at this link: <https://www.grants.gov/web/grants/view-opportunity.html?oppId=298290>

If adding the Geri-Fit® evidence-based health promotion program for older adults is something your organization is interested in pursuing, we'd be happy to provide you with additional information.

This funding opportunity closes April 2, so please contact us soon if you need help in preparing your documents or application. Thank you.

Francesca "Geri" Fisher
